

TEAM VISION WORKSHOP

JUMP-START INNOVATION, CREATIVITY & TRUST

"A TEAM ALIGNED BEHIND A VISION WILL MOVE MOUNTAINS." KEVIN ROSE

Building a Dream Team is more than just hiring the right people. It involves effective collaboration, creative problem solving, emotional intelligence and trust.

Every Dream Team starts with a vision. More than just common goals, a vision inspires hard work. Unifies purpose. Sparks innovation. Builds common ground.

A VISION IS CREATIVITY AND COLLABORATION IN MOTION

This facilitated workshop is conducted in two parts. This approach helps us ensure everyone's perspective is heard and that we're truly addressing the team's needs.

Part I: We talk with each team member individually. Think of this as an individual, anonymous mini SWOT analysis. We then distill these conversations into key learnings and areas of opportunities. This is the common ground we build from.

Part II: It's workshop day! Each activity is crafted based on the needs of the team. We may need to work through some sticky team dynamics. Or address some unconscious biases that are getting in the way of team cohesion. Our priority is helping you craft your vision and lay the groundwork for a high performing team.

We come to you, bringing the supplies and materials needed. You supply the space, the people and the snacks. It doesn't get more turnkey.

Cost is based on group size, duration and location.
